Chad Lundy
Boeing

Northwest Section

David Kern
FAA

Southeast Section

Tom Currie
Bell Helicopter

Southwest Section

Jameel Janjua
Maj, RCAF

West Coast Section

27 July 2018

Dear Corporate Representative:

As we come toward the end of our Symposia for 2018, I wanted to extend a special thanks to all of our Corporate sponsors. Without your support these events would not be possible. We have completed 6 regional Symposia across the U.S. as well as our 50th European Symposium in Turin, Italy. Additionally, SETP sponsors the Flight Test Safety Workshop, which took place this year in Arlington TX. This year's Workshop brought together individuals from a variety of organizations and backgrounds to review, discuss and develop test hazard analysis products that can be shared and utilized by all of us.

Participation in each of these events has been tremendous with representatives from over 50 different aerospace organizations across industry, government and academia. Each event has had a diverse mix of presentations sharing lessons learned, best practices, innovative ideas to improve flight test safety and efficiency as well as historical recounts of aviation accomplishments over the years. I firmly believe that these events have a positive impact on safe and efficient conduct of flight test for all involved in that activity.

We have our final event for 2018 in September in Anaheim, CA which will be our 62nd Annual Symposium and Awards banquet. Thank you again for your continued support of the Society of Experimental Test pilots. Your sponsorship ensures we can continue to share ideas and experiences which promote and enhance safety, communication and education.

Sincerely,

Art Tomassetti

SETP President
