

FLIGHT TEST SAFETY WORKSHOP 2021

THE
FLIGHT TEST SAFETY COMMITTEE

invites all flight test professionals to join us in London for the 2021 Flight Test Safety Workshop at the Royal Air Force Club in London's famous district of Mayfair. As the FTSW was postponed from 2020 due to the Covid-19 pandemic, the workshop's theme still stands:

IMPROVING FLIGHT TEST SAFETY THROUGH ENHANCED SAFETY RISK MANAGEMENT

TUTORIAL:

Which actions are you or your organisation taking to improve safety risk management? How do you measure it's effectiveness? The workshop is intended to also work out methods to improve the robustness of our hazard identification and associated risk mitigation methods.

PRESENTATIONS:

Target presentation length should be 20 minutes. Please send presentation/briefing proposals, or send any questions concerning presentations to the Workshop's Technical Chairman, Dave Best via Dave.Best@Novasystems.com . *The deadline for proposals is 31 July 2021.*
