Lt Col Walter A. Grady, USAF (Ret)

CHARTER

Initiate and sustain a Flight Test related Safety Organization intended to promote flight safety, reduce the risk of mishap, promote risk management and continually improve the profession's communication and coordination. To facilitate these goals, the Committee will develop, implement, and maintain a Flight Test related computerized database readily available to all members and member organizations.

MISSION STATEMENT

1. Foster good interchange of information related to Flight Test Lessons Learned to reduce potential mishaps.
2. Promote an atmosphere of sharing Lessons Learned and/or Best Practices for risk reduction management.
3. Direct the effort to promote Flight Test Safety through education.
4. Gather information to compile the database and accomplish the goals of the Charter.
5. Assimilate the information in a user-friendly computer system, provide worldwide access and update the database, as information becomes available.
6. Ensure that the data collected, used, and distributed from this effort DOES NOT REFLECT upon the prior actions, incidents, or accidents of the members or associated organizations.

PROGRAM

***FLIGHT TEST SAFETY
WORKSHOP 2003***
